

A TIME TO LOVE AND A TIME TO HATE

Ed Sommerville

This is taken from a verse in Ecclesiastes 3:8. Yes, there is a time to hate, and I think that time has come. The Christians along with the God fearing patriots have more than enough things to hate now, as we watch our nation go down as ancient Rome and so many others over the years. They are always brought down by destroying the morals and work ethics of the young and the ability to live off the public treasury without working.

We hate the idea of millions of illegal's coming in from our southern border and given free medical attention and education at our expense, while bringing in many Mid-Easterners who are potential terrorists.

We hate the bringing in of "refugees" from the Mid-East without any idea of what their intentions are, as there are so many young men that come in with them. Even if they are all good people, we are no longer able to provide them with housing, food, schooling, medical care and places to keep them as we are already almost 20 trillion dollars in debt.

We hate it when thousand are being flown into our airports by UPS cargo jets equipped with seats and being deplaned in darkness at the far end of the airport, and then loaded into large busses provided by churches and taken to prearranged places. By doing that, they have managed to by-pass customs, which is illegal. Our anti-American and anti-Christian that occupies our White House is an accomplice in this felony.

We hate the fact that our military that does the fighting to enrich the bankers along with their military industrial complex does not have the money or desire to help them. Some of the aliens here receive much faster medical attention than they do. **Those who don't take care of their own are worse than an infidel.**

We hate the lies, misinformation and the withholding of truth by our liberal and controlled media, both TV and printed distortions by newspapers, magazines etc. How quick they are to attack any individual or publication that disagrees with there propaganda. Some of them are put in prison for it. **In a times of universal deceit, truth becomes revolutionary.**

We hate the fact the Democratic party appeals to and curries the votes of the millions that have never worked or contributed anything financially or morally to the nation they

live in are able to vote for the one that promises the most for their parasitic lifestyle. Their vote counts the same as one who has contributed all his life with his work and his income. One could be a low life or even a criminal, but as long as he takes up space he can vote. How long do you think a corporation would exist if the workers could vote in a stockholders meeting?

We hated it when they succeeded in throwing God out of our schools and our once Godly government. We hated it when our public schools were turned into indoctrination centers, and our teacher into change agents that prepare our kids to conform to the New World Order and promote Socialism.

We hate to be forced into being politically correct and conform to the wishes and demands of our Humanistic leaders. All real Americans put our country first and above any country on earth, including the Anti-Christ nation in the Mid-East, even if we are told that it is anti-Semitic to say it.

We hate to be told that there is no difference in the races than the color of their skin, and to say anything contrary, you are a racist. The Bible is the most racist book ever written, which makes God a racist. He is the one that created all the races and He did it for His purpose. He told His sheep, the ones that have heard His voice and followed him en mass for the last 2,000 years, not to mix with the other races. He told us not to mix the Holy seed with the profane, and to come out from among them and be ye separate. The animals, birds and the fishes are programmed in their DNA not to mix, but he gave us a superior brain that we should be accountable to do the same. Even our people that do not attend any church, knows there is something amiss by mixing with the other races. The Humanists however have formed a new religion of Universalism that has crept into many of our churches that promote this very thing. I for one know there is a difference between the races, which makes me a racist.

Many Christians and people that no longer attend today's contemporary New Testament churches hate the sexually implicit sex and extreme violence seen on TV and the movies. They are now permitted to blaspheme Christ or ridicule Christianity with impunity, but if one were to say the word nigger on TV he would be out of a job. Christianity is the only religion that can be demeaned or trashed by using their first amendment right. As a Christian, what offends you the most, blaspheming Christ or the word nigger. I think our priorities have been carefully and deceitfully altered.

We hate what the media and academia have done to destroy every vestige of Christianity in the Christian South. They have turned the Christian Confederate flag that

was patterned after the Saint Andrews Cross, the Christian flag of Scotland, into a symbol of hate. They want to remove or destroy all statues of the Christian Confederate generals. They even plan to remove the picture of Andrew Jackson, one of Americas greatest presidents and replace it with a Black woman who accomplished nothing to our heritage. Intelligent Americans hate to be involved in wars we have no intention of winning against countries that have never done anything to threaten our safety or our freedom. We hate the idea that we need air bases in 150 foreign countries with over 500 military bases around the world. This cost alone with the tens of thousand of troops stationed there are astronomical.

We hate to see our infrastructure with our outdated airports along with highways and over 1,000 bridges deteriorating at a rapid pace without enough money to repair or replace them as our money is being wasted on our no win wars and millions of aliens and refugees to support. Take the time to Google China's airports and China's highways and see what our money has done for them, thanks to our free trade policy. Yes our billionaires are making billions from it, at the cost of the middle class.

There are many things that could be added to this list, but I think you get the picture. We now have Hillary and her Democratic and neocon friends, the people of love who are happy to keep things the way they are as they just get richer by the day at our expense. We don't need America great again because they like it just the way it is. They won't be happy till they have gained all the wealth and we will be serfs in the land that our founders fought and died for.

You could say that Donald Trump is a man of hate, but he hates the very things that I have listed. I along with millions of Americans stand with him in his hatred of all the things that have brought us down. Yes, there is a time for hate, but it has to be channeled in the right direction. Our enemies have used hatred to attack everything Christian and American. They are masters at this art, as they have used it to attack anyone that tries to challenge those who are deceiving us.

This coming election will be the most important election in our history. If Hillary is elected it's game over, as she will appoint Supreme Court judges that will conform to her every wish. We will quickly turn into a dictatorship as there will be no federal power to stop her. This nation will never be the same under her leadership. It will drastically effect all of us.

King David, who God said was a man after His own heart, had this to say **Do not I hate them who hate thee? And am I not grieved with those who rise up against thee? I**

hate them with perfect hatred: I count them my enemies. Psa 140:21-22 There is no place in the entire Bible that says we should love His enemies. Millions of today's Christians actually look up to the very people that hate Christ. This is hard for the rational mind to accept.

Hillary made the statement that **We don't need to make America great again, it's already great.** In her distorted and depraved mind she likes things the way they are and would be more progressive than Obama. As historians know, all Democracies have had a lifespan of roughly 200 years as they all fail when there are more people living off the dole than there are people paying into it. One more thing about Democracies is, that they always end up in a dictatorship. We are now way past the 200 year mark and our days are numbered, unless someone can turn it around. Needless to say, Hillary does not want to turn it around.

Hillary also accused Trump of not wanting to go forward, and he wants us to go back. Making it sound like something ominous and bad. However there are many of us that would love to go back in time. A time when you could leave your house without locking the door. A time when you could leave your car without locking it or taking the key out. A time when no one thought of thieves breaking into their houses when they were on vacation. It was a time that your daughter could walk home after dark without thinking she could be raped and possibly murdered. Until the Civil Rights Bill was passed, it was still relatively safe in the big cities. Now some of our large cities have become a living hell, even for the Blacks, especially the elderly that live in fear behind locked doors.

Yes, this is also a time to love. To love our heritage. To love our Christian ethics, and love to go back to those times. De Tocqueville was right when he said in the 18th Century, **America is great, because she is good, but if she ceases to be good she will cease to be great.**
